THE

FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL)

ESTABLISHED 1902

INDEX TO VOLUME LXIV

January to June, 1941

Head Office:
49, Wellington Street, London, W.C.2

Index to Volume LXIV

SUBJECT INDEX

A

Abrasives, Metallic, 193
Acid Bessemer Process of 1940, 9
Acid-Resisting Cast Iron, 107
Acid-Resisting Castings, Production of High Silicon, 51
Aero-Engine Cylinder Heads, Casting, 139
Agricultural Implement Castings, Nickel in, 186
Alkali Desulphurisation, 90
Alloy Iron Castings, Melting and Casting Problems in the Production of High-Strength and Special Duty, 191, 203, 223
Alloy Steels, Special and, 105
Alloys, Iron-Nickel, 86
Alloys for Die Castings, Rating, 364
Alpine Montan Progress, 276
Aluminium, High-Pressure Die-Casting of, 102
Aluminium Alloy, Gravity Die-Casting in a High-Strength, 3
Aluminium and its Alloys, Plant for Melting of, 297
Aluminium and Magnesium in U.S.A., Position of, 84
Aluminium Bronze, Solidification of, 281
Aluminium Castings, Titanium in, 160
Aluminium Castings for Aircraft, 261, 347
Aluminium Sheet, Corrosion of, 74
American Society for Testing Materials, 246, 334
Arc Furnaces, Automatic Control of, 300
Ash Determination in Coal and Coke, Factors Affecting, 139
Austenite in Grey Cast Iron, Isothermal Transformation of, 239
Austenitic Nickel-Chromium Steels, Analysing, 6

B

Bearing Rings, Flame-Hardening Cast-Iron, 125
Bell Founding, Some Notes on, 268, 280
Belt Transmissions, Installation and Care of, 43
Bessemer Steel, A Method for Rapid Dephosphorisation, 137
Birmingham, Industrial Museum for, 238
Blackheart Malleable Castings, Cupola-Melted, 187, 205, 249
Blast Furnace, Design Modifications in First Russian Standard, 428
Blast Furnace, Gaseous Reactions in, 416
Blast Furnace Air Conditioning Plant in U.S.A., 330
Blast Furnace Burden, Effects of Scrap in, 313, 428
Blisters, Pinholes and Black Specks on Vitreous-Enamelled Cast Iron, Formation of, 161
"Book" Moulding with Green Sand Cores, 427
Book Reviews:—
A.S.T.M. Standards, Index to, 91
Cutting Tools for Metal Machining, 196
Electrical Engineer's Companion, 377
Engineering Properties of Grey Cast Iron, 410
Fire Assaying, 330
Geometry of Sheet Metal Work, 18
If Your House is Bombed, 422
Jordans Income Tax Guide, 422
Mechanical Testing of Metallic Materials, with Special Reference to Proof Stress, 244
Mechanical World Year Book, 1941, 18
Motion and Time Study, 244
Sampling and Chemical Analysis of Cast Ferrous Metals, 214
Works Boiler Plant, 2
Boulton and Watt Engines Scrapped, 120
Brake Drums, Grey Cast Iron and Meehanite, 387, 405, 423
Brass Die-Casting, 91
Brass Ingots, Wanted, 140
Brinell Hardness Test Readings, Taking, 54
Brinell Values for Cast Iron, Observational Accuracy, 256
British Cast Iron Research Association, 37, 55, 75, 89, 102, 111, 127, 294, 304, 317, 326, 327, 343, 404
British Standards Institution, 114, 156
British Standards in Wartime, 276
Bronzes, Beneficial Effect of Zirconium in Cast Nickel-Silicon, 69

C

Carbon in Low-Carbon Iron and Iron Alloys, Determination of, 174
Cast and Forged Steels, Creep Strength of, 102
Casting, Record Heavy . . .? 196
Casting Aero-Engine Cylinder Heads, 139
Casting Defects, A Study of One Cause of, 389
Casting Losses, Thin-Section, 250
Casting of D.T.D. 424 Alloy, 74
Casting of Iron Pipe, Vertical, 141
Casting Production, Some Points in, 103
Castings, Permanent Moulds and Their Applications to the Production of Non-Ferrous, 153, 210
Castings, Production of High-Silicon Acid-Resisting, 51
Castings, Production of Motor-Vehicle, 121
Cast Iron, Acid-Resisting, 107
Cast Iron, Cerium Additions to, 88
Cast Iron, Cr-Mo, for Drawing and Forming Dies, 299
Cast Iron, Determination of Oxide Inclusions in, 317
Cast Iron, Formation of Blisters, Pinholes and Black Specks on Vitreous-Enamelled, 161
Cast Irons, High-Duty, for General Engineering Purposes, 304
Cast Iron, Ladle Additions of Graphite to Grey, 5
Cast Irons and Pig-Irons, Metallography of Inclusions in, 37, 55, 75, 89, 111, 127, 364.
Cast Iron, Reinforced, and Its Applications, 346
Cast Iron, Significance of Hydrogen in the Metallurgy of Malleable, 143, 159
Cast Iron, Welding of, without Preheating, 209
Cast Iron, What is . . .? 102
Cast-Iron Bearing Rings, Flame-Hardening, 125
Cast-Iron Electrodes for Welding Grey Cast Iron, 157, 180
Cast-Iron Enamelling, Observations on, 301, 379
Cast-Iron Micro-Specimens, Polishing of and Metallography of Graphite Flakes, 327, 343, 364
Cast Steels, Chromium-Molybdenum, 259
Cast Steel, Molybdenum, 214
Cerium Additions to Cast Iron, 88
Chipping Hammers, Care of, 178
Chromium-Molybdenum Cast Iron for Drawing and Forming Dies, 299
Chromium-Molybdenum Cast Steels, 259
Coal, Power Consumed in Pulverising, 193
Concentration of Production, 340
Contraction of Large Cast-Iron Castings, Observations on Liquid Shrinkage and, 103
Copper, Hydrogen Embrittlement of, 91
Copper Supplies, Safeguarding, 354
Copper Supply Position, 172
Core-Drying Shells, 300
Coreless Induction Furnace, Melting Losses in, 59
Core-Making Methods, Improving, 45
Core Ovens, Modern, 7
Cores, Careless Venting of, 22
Cores in Shell Moulds, Method for Securing, 190
Core Stoves, Congestion Around, 125

Correspondence—
Acid-Resisting Cast Iron, 172
Acid-Resisting Cast-Iron Pots, 136
Cast-Iron Armaments, 18
Cast Grids, 50
Core-Drying Shells, 326
"Dusty Iron," 68
Heavy Flywheels, 50
Melting Borings, 348, 370, 386
Moulding Methods, 120
Moulding Practice for Hot-Forming Dies, 422
Steel or Cast-Iron Pipes? 360, 386
Trained Welfare Workers, Supply of, 274

Corrosion of Aluminium Sheet, 74
Creep Strength of Cast and Forged Steels, 102
Cupola, De-oxidation in Foundry, 398
Cupola Control, Outline of, 331, 360
Cupola Operation, Slagging in, 408
Cupola Tapholes, 377
Cupola-Melted Blackheart Malleable Castings, 187, 205, 249
Cylinder Heads, Casting Aero-Engine, 139

D

De-oxidation in foundry cupola, 398
Dephosphorisation of Bessemer Steel, A Method of Rapid, 137
Desulphurisation, Alkali, 90
Devereux, W. C., Appointment in Ministry of Aircraft Production, 404
Die-Cast Silicon-Aluminium Alloy Pistons, Unsoundness in Gravity, 257, 277
Die Casting, Brass, 91
Die Casting, High-Pressure, of Aluminium, 102
Die Castings, Plating Zinc, 102
Die Castings, Rating Alloys for, 364
Die Casting, Spherical Pivot formed in, 407
Die Castings, Tumble-Burnishing, 260
Die Castings in High-Strength Al Alloy, Gravity, 3
Die Castings in Magnesium Alloy, 241
Diesel Engine Silencer, Moulding a, 376
D.T.D. 424 Alloy, Casting of, 74
Dutch Iron and Steel Industry, Conditions in, 378

E

Elbow Pipes without Chaplets, Making, 260
Electric Furnace Design and Practice, 68
Electric Furnace Manufacture, 126
Electric Furnaces, Modernising, 378
Electric Furnaces in South Africa, 122
Electric Lamp Caps, Recovery of, 68
Enamel Coatings, Relation of Defects in, to Hydrogen in Steel, 11, 92, 164
Enamelling Industry, Vitamin A in the, 386
Enamels, Molybdenum in, 228
Enamels, Acid Resistance of, 302
Excess Profits Tax, 260

F

Factory Lighting Regulations, 186
Fettling Analysed, 391
Fire-Prevention Service Now Compulsory, 50
Flame-Cutting Wrought Iron, Welding and, 62
Flux, A New Precalcined, Developed, 408
Fluxes, Soft Solders and, 40
Foundry Coke Merchants' Association, 322
Foundry Equipment Works, A new, 392
Foundry Industry, A Post-war Hint for the, 392
Foundry Mechanisation and Equipment, 355, 425
Foundry Patent Action, 354
Foundry Practice, Problems in, 53
Foundry Practice, Tin in, 374
Foundry Problems, Pipes and Forming-Die Practice, 393
Foundry Refractories, Quality of, Criticised, 371
Foundry Sand Research, 286
Foundry Stoves, Automatic Firing and Control of, 319
Foundryman and the Metallurgist, The, 24, 41
French Steel Industry, Reorganisation of, 358
French Views on Moulding Sands, 71

G

Gases in Steel, 62
Germany's Second Four-Year Plan, 373
Goods and Services (Price Control) Bill, 404
Graphite Flakes, Polishing of Cast-Iron Micro-Specimens and Metallography of, 327, 343, 364
Graphite to Grey Cast Iron, Ladle Additions of, 5
Green Sand Cores, "Book" Moulding with, 427
Grey Cast Iron, Cast-Iron Electrodes for Welding, 157, 180
Grey Cast Iron, Isothermal Transformation of Austenite in, 239
Grey Cast Iron, Ladle Additions of Graphite to, 5
Grey Cast Iron and Meehanite Brake Drums, 387, 405, 423
Grey Iron, Melting Furnaces for, 23

H

Hadfield, Sir Robert, Bequests of, 130
Hematite Pig-iron, Production and Distribution, 8
High-Duty Iron, Factors in Production of Sand Castings in, 315
High-Duty Irons for General Engineering Purposes, 304
High-Silicon Acid-Resisting Castings, Production of, 51

I. Eng. Lib.

Holland, Patternshops in, 123
Hot-Tinning of Iron Castings, 173, 189
